Obtain De-Clustered Water

SCIENTIFIC WATER TREATMENT DEVICE

COMPANY PROFILE

MAA SHARDA ELECTRONICS System founded in 2002 as one of the leading company in the field of Research, Development & Manufacturing of **Electronics, Electrical Products & Scientific Water Treatment Device** producing **De-clustered Water** (UNIQUE PRODUCT) In brand name **UNIFAN** and **NEEB AQUA**.

Observing the acute requirement of Energy efficient products in market, Our R & D team developed BLDC fans with power consumption of 30 – 34 Watts only, whereas the conventional fans available in market consumes 90-100 Watts. Our offered products such as **BLDC Ceiling / Table Fans, LED.**

Bulbs, LED Tube lights are extremely applauded in the market with **5 Star Rating**, owing to their long working life, reliable performance, sturdy design and Low maintenance. We make these products utilizing the optimum quality component that is procured from trustworthy vendors of market. To keep the industry standards, our experts develop these products under the leadership of knowledgeable experts who have years of experience in this field.

Now we start and launch our New Unique product **SCIENTIFIC WATER TREATMENT DEVICE** in brand of **NEEB AQUA** producing **De-clustered water**, useful in **Construction, Industry, Hospitals, Hotels, Swimming pools, Laundry, Agriculture, Fish Farming, Animal Husbandry** and also maintain Life of **Commercial RO.....**

Our wide spread infrastructure is separated into various units of production and supply such as manufacturing, warehouse & packaging, quality, supply & trade. Our manufacturing unit is settled with high performance machines that are competent of handling bulk of task. Owing to these features, we have garnered vast and loyal clientele across the country. Our product have been recognized & certified many Govt. And Private Authorities like **UPNEDA, HAREDA, BAREDA, CREDA**, Etc.

We have come out with superior quality products to maximize our clients satisfaction and win trust. Our intention has always been to benefit users through our high-end products and superb services.

NEEB AQUA TECHNOLOGY

- A unique rotational system of magnetic field is incorporated in a section of pipe to restructure the large water molecules into smaller ones.
- The restructured water clusters render hard water soft, preventing the deposition of Calcium and Magnesium that cause scaling. restructuring of water brings about changes in the physical and chemical parameters of the water.
- The inner pipe is stainless steel 304 grade and the outer pipe is stainless steel 304 grade to block the magnetic field.
- The technology also neutralizes the harmful suspended particles, bacteria, gases and toxins with no or lower chemical footprints.

DOMESTIC

Hard water interferes with almost every cleaning task from laundering and dish washing to bathing and personal grooming.

- Minimized Hair Loss and Controls skin diseases
- Helps in dissolving and preventing formation of Kidney stones
- Prevents Scaling and increases efficiency of Home appliances.
- Neeb Aqua treated water requires less detergent and results in whiter clothes.
- Increases life of RO System

CONSTRUCTION

- Neeb Aqua treated water helps in curing of concrete at early stage.
- Neeb Aqua treated water reduces hardness of water.
- Increases compressive strength and workability of concrete.
- Heat of hydration in concrete, Increases of in amount of slump in concrete.
- Initial and final setting time of concrete decreases.
- The use of Neeb Aqua scientific water treatment device also enhances the life of building material like bricks, iron bars etc at construction sites.

INDUSTRY

- Hard water in most factories can be treated without chemicals to address challenges of scaling in pipes, Boilers, Heat Exchange & Equipments etc.
- Chemical Footprints can be largely reduced with Neeb Aqua Device making the processor more economical and more environment friendly.
- Neeb Aqua Device can be use in STP Plants as it accelerates rate of solid sedimentation. Fermentation period of organic dwindles down, dissolved solids in the water go down and pathogens also decline.

FARMING & AGRICULTURE

- Irrigation using Neeb Aqua Device can improve Agricultural, Predicting of Planting Growth, Seed Germination, Seedling Vegetative growth.
- Neeb Aqua water device brings about many positive changes in teh quality of crops. It increases crop production by 30-40%.
- Solubility of minerals increases, plants get more nutrients, because of the fine osmotic pressure.
- pH levels are balanced, electrical conductivity is reduced and soil porosity is increased.
- Water become more bioavailable and less water is required for irrigation.

HOSPITALS

- Neeb Aqua treated water reduces high maintenance cost of expensive instruments, due to scaling, replacement of pipes, and other periodic wear and tear.
- Efficiency and longevity of imported and indigenous machines in OTs, Dialysis units etc. is at stake, if the water used on them or for them is hard.
- Power consumption and water consumption is drastically reduced with Neeb Aqua treated water.

ANIMALS, FISH FARMING, POULTRY & DAIRY FARMING

Poultry : Neeb Aqua treated water improves bone formation and accelerates growth in Poultry.

Fish Farming : Results in better survival and growth rate of fishes.

Diary Farming : Increases resistance to diseases in animals. Results in weight gain and increases in milk production.

FEATURES

- Safe, pure and bioavailable water for consumption
- Maintenance Free
- No chemical treatment
- Reduces surface tension
- Minimum Product life of 25 years constant effectiveness throughout the product's life
- Saves Energy
- Solubility of minerals is increased
- Easy installation
- Prevents Scaling
- Deactive Bacteria and other Toxins

DECLUSTERED WATER BENEFITS

- Improves metabolism and facilitates removal of salt from the body.
- Helps to dissolve kidney stones and Maintains blood pressure.
- Has a positive effect on the Autonomic Nervous System.
- Has a therapeutic effect on the digestive system and stimulates the gastro-intestinal tract.
- Reduces the concentration of chlorine in water
- Dissolved oxygen increases.
- Hydrates the cells and keeps the body energetics.

Sizes of Neeb Aqua

- Neeb Aqua Portable Device
- Neeb Aqua 1 Inch
- Neeb Aqua 2 Inch
- Neeb Aqua 3 Inch
- Neeb Aqua 4 Inch

- Device are available in Domestic & Commercial form.
- Customized option also available.
